

SANCA RFQ Two-way radios Q&A Addenda 9.3.2019

Q) is this RFQ requesting 120 radios to keep onsite for the duration of a year or is it to have availability of 120 radios (+/-) for events of the course of a year

A) It is a random number. We need radios for events throughout the year for brief periods of time, 2-14 days in most cases and the number needed depends on the size and complexity of the event. If you can provide pricing based on brackets of number of radios needed and number of days used that would assist us in determining your cost effectiveness.
